

How to stack Biergarten Table sets or High Top Tables

1. Please wipe off tables and benches before stacking
2. If stacking on the ground, two pieces of lumber or two stacking strips should be placed about 4 feet apart on the ground for tables to be stacked on to.
3. Stack table face down and if there are benches then two benches face down. Table then two benches, etc.

Please DO NOT lay table/bench tops or edges directly on asphalt or concrete surfaces as that causes damage to the tables.

CUSTOMERS ARE RESPONSIBLE FOR DAMAGE!

THANK YOU!
We appreciate your business!
